

MEDICAL FACULTY UNIVERSITY HOSPITAL MAGDEBURG

EXPERIMENTAL OBSTETRICS AN GYNAECOLOGY

class 2c

27.05.2014 -

The 23 of May 2014 children from second grade (class 2c from the Grundschule Northwest) visited our Department. It was a funny day, the kids learned how to isolate DNA from a banana, to see the onion skin under the microscope, to make foam out of yeast and to use the pipettes.

It was a lovely day and we do hope that the children enjoyed the day with us.

Thanks for the visit!
