COORDINATION CENTER FOR CLINICAL STUDIES

Welcome to the Coordination Center for clinical studies in Magdeburg

The KKS Magdeburg is a member of the KKS network and the contact point for questions about "clinical trials" and offers you competent advice, support during the clinical examination and quality assurance measures for the successful implementation of your ideas. Furthermore, we are pleased to inform you about training and further information on continuing education.

If you have any questions, please feel free to contact us anytime.

We look forward to a promising and a successful cooperation.

The employees at KKS Magdeburg

We see study planning as a process that finds its way through different external, internal and formal framework and will probably never be static even when we arrive at the final destination.

This process is sometimes laborious and stressful for the individual - a product of many considerations and dislocations. Once the timetable has been determined, the train leaves the station with a clear goal - and theory becomes practice.

We look forward to working with you!
